

Please consider the Bill to prevent stores from selling dogs coming from puppy mills!

I am very familiar with the conditions that these poor dogs are kept in. It is inhumane that Connecticut pet stores are willing to patronize these puppy mills. Often, consumers don't realize where these dogs are coming from. But we do know, and we must do something to stop it. I believe in the free market but most definitely not at the expense of live, innocent animals. This should not cripple local pet stores. They may adopt out some of the many homeless, shelter animals and of course sell all kinds of other pet supplies.

Please, do the humane thing and think of the animals over the profit money these pet shops are making.

Thank You,
